ePortfolio Worksheet
Part 2: Order and Substance

Your ePortfolio (a.k.a. Public Portfolio) is a public website that you develop to further your post-graduation goals. It should be directed at a speci c audience (e.g., employer or grad school admissions o cer)—NOT your CxC Representative or your Faculty Advisor. It must showcase your knowledge of the eld you are pursuing and your exceptional communication skills. Think of it as your online résumé and presentation of work samples and relevant experience, but communicated in a multisensory narrative.

Be sure to review all requirements for the Public Portfolio, available at cxc.lsu.edu/dc.
