The Department of Civil and Environmental Engineering is always interested in how our alumni are doing. We hope you will take time to complete the Alumni Update information below. Please include information on your recent professional and per-

Civil & Environmental Engineering Department

Forever LSU: The Campaign for Louisiana State University, launched at the end of June, 2006. The goal is to raise \$750 million by the University's Sesquicentennial in 2010. The College of Engineering set a target of \$100 million.

For over a decade now, Clovis Morrison, an instructor in the Department of Civil and Environmental Engineering, has offered students the chance to visit local dock sites to see real life examples of what they have learned in nity to finally understand the class. This past fall semester, Morrison and the students of CE vious in-class design work. 4430, Design of Marine Structures on Inland Waterways, took It was also a great opportunity a field trip to the Port of South Louisiana at Reserve. The students toured the facilities where they were able to see two ship docks at the Globalplex, Reserve Morrison said the trip was not an Terminal.

"Visiting the Port of South Louisi- Ipwed ne to undeana's docks showed many interesting things that linked the calculations and computer analysis that we have done throughout the class with real field visualization," said a student who participated in the field trip. "It was benefiting to see the enormous bridge cranes and oversized loading on the platforms and accurately assess the worst case scenarios."

At this point in their college career, students majoring in civil engineering have accumulated countless hours of classroom and self-study time in design and analysis of structures. This field trip gave students the opportu

practical application of their pre-

for students to see an actual operation site and the working conditions of engineers.

IN FOCUS: EVENT HELD FOR ALUMNI AND FRIENDS

The Department of Civil and Environmental Engineering's part of the Forever LSU Campaign launched in earnest on November 17, 2006. Wilfred and Shelley Barry sponsored this superb event for select alumni and friends, and hosted it in their lovely home in Baton Rouge.

"The Forever LSU capital campaign was getting started, and George Voyiadjis and Don Eisenberg asked me to help with the Campaign Steering Committee. After deciding to become a member of the committee, I thought it was time to step up and publicly indicate to my peers and friends that this was a worthy cause4ends was a worthy
