

A Hot Work Permit is required before beginning any work involving electric or gas welding, cutting, brazing, grinding, torch work or similar flame or spark producing operations within 35 feet of an LSU building or other combustible/flammable material on campus. Hot Work Permits are not required in designated hot work areas.

- | | | |
|---|-----|----|
| Can the object to be welded or cut be moved to a permanent hot work designated area? | YES | NO |
| Can this job be done without the use of hot work operations? | YES | NO |
| Is the hot work being performed at least 35 feet away from a building or any other combustible or flammable material on campus? | YES | NO |

If "YES" was selected for any of the above, a Hot Work permit may not be required.
Contact your supervisor or the LSU EHS Department to verify.
