

Natural Resources (LSU RNR) Louisiana Plant Identification and Interactive Ecosystem Virtual Tours<sup>8</sup>. Additional sources may be consulted as needed.

**Procedure.**

1. For plants procured from vendors, after checking the spelling enter the scientific name (preferred) or common name provided by the vendor in the USDA Plants Database. If designated as Native, review map to determine if native in Louisiana.
2. Confirm USDA result via the Lady Bird Johnson Wildflower Center (see each plant's section listing states where native and/or restrict site
