Week 15: November 29

STUDENT READING SELECTIONS

Each student will select and present in class one article published in the past 2-3 years in the listed journals on p. 3 of this syllabus. The article needs to be related directly to one or more topics in this course and its selection justified on the grounds of its theoretical relevance and research contribution to the select body of literature covered in this course. I have to be notified about the article selection by **November 15** at the latest.

Recall: An electronic version of the final paper is due by 10 a.m. on November 29. A hard copy need be brought in class on the same day.
