

WHO IS READY TO BECOME A PALEONTOLOGIST?

Link to our exhibit: "Allosaurus"

MACROPALEONTOLOGY AND DINOSAURS

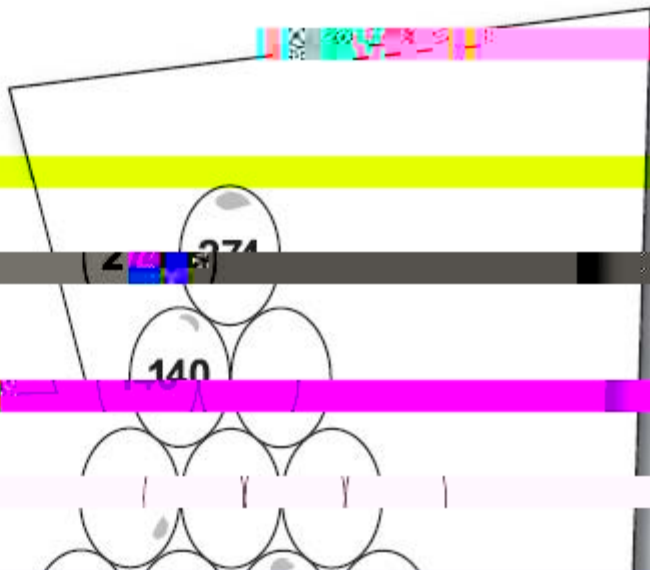

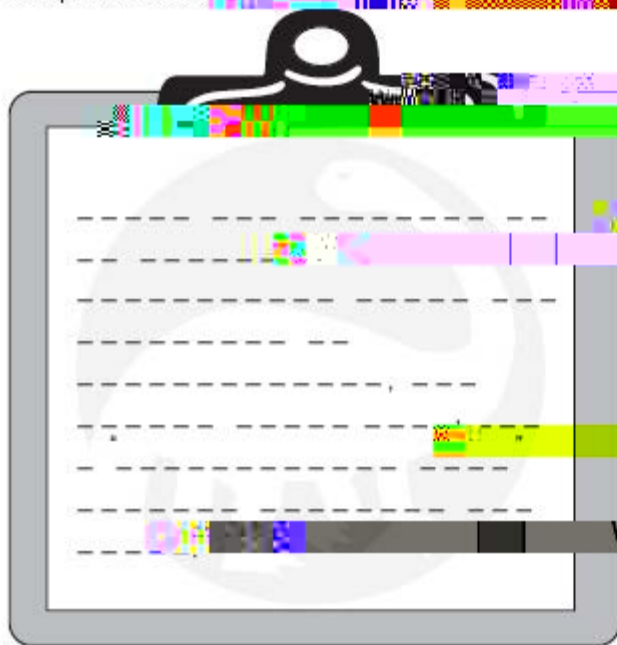

GAME 1: Do you know which animal is the ancestor of dinosaurs?
Take the letters that corresponds to the animal's name.

QUESTIONS	TRUE	FALSE
1 Dinosaur means terrible lizard.	TRU	LES
2 Velociraptor was a dinosaur that could fly.	TRU	LES
3 Dinosaurs appeared approximately 225 million years ago.	TRU	LES
4 Allosaurus was the biggest meat-eater of the Jurassic period.	LES	TRU
5 Dinosaurs had two or four legs.	TRU	LES
6 All dinosaurs were bipedal, which means they walked on two legs.	LES	TRU
7 The word "saurian" means having a lizard-type hip structure.	TRU	LES
8 All dinosaurs were meat eaters, or carnivorous.	LES	TRU
9 Dinosaurs lived during the Mesozoic era.	TRU	LES
10 Dinosaurs belong to the group of reptiles.	LES	TRU
11 Tyrannosaurus rex was one of the most dangerous predators.	TRU	LES
12 All dinosaurs were plant eaters.	LES	TRU
13 Dinosaurs were found on every continent on Earth, even on Antarctica.	TRU	LES
14 All the dinosaurs were big.	LES	TRU
15 Pangaea was the name of a super-continent that included all the continents.	TRU	LES
16 The Earth's climate was much colder when the dinosaurs lived.	LES	TRU
17 Some dinosaurs were as small as a chicken.	TRU	LES
18 The climate was different in the Mesozoic, there was no ice at the poles.	TRU	LES
19 There are more than 3500 different kinds of dinosaurs known.	LES	TRU
20 The oldest known bird is Archaeopteryx.	TRU	LES
21 We know dinosaurs because they were found in fossils.	TRU	LES
22 Paleontologists are scientists who study fossils.	TRU	LES
23 Sauropods were bipedal herbivorous dinosaurs.	LES	TRU
24 Some scientists think that some dinosaurs might have been warm-blooded like birds.	TRU	LES
25 Theropods were bipedal carnivorous dinosaurs.	TRU	LES
26 The dinosaurs' extinction was caused by the impact of a huge meteorite on Earth.	TRU	LES
27 Cavemen were very afraid of the dinosaurs.	LES	TRU
28 Brachiosaurus did not have sharp teeth because they were plant eaters.	TRU	LES
29 Pterosaurs were dinosaurs that could fly.	LES	TRU
30 The super-continent Pangaea can split into 2 continents in the middle of the Mesozoic.	LES	TRU
31 Most dinosaurs hatched from eggs.	TRU	LES
32 Plesiosaurs were dinosaurs that could swim.	LES	TRU
33 Brachiosaurus was one of the tallest dinosaurs (85 feet long and 40 feet tall).	TRU	LES
34 Most fossils are found in volcanic rocks.	LES	TRU
35 Velociraptor was one of the smartest dinosaurs.	TRU	LES
36 Triceratops is characterized by its 4 horns.	LES	TRU

Write the letters from the correct answers in this note pad to find out the

GAME 2: DO YOU KNOW HOW MANY MILLIONS YEARS AGO THE DINOSAURS BECAME EXTINCT?

To find out, do our math game with the number indicated on the eggs on the nest equal the sum of the number written on the two eggs below. Following the same logic, you will find out how many millions years ago the dinosaurs became extinct. It's a fun way to learn math!
